[MR. SPEAKER in the Chair.]

Grant of Permission to Marathi Medium High School at Hulsur.

*Q.—367. **Sri BAPURAO PATIL HULSURKAR** (Hulsur).—

Will the Government be pleased to state :—

(*a*) whether Marathi and Kannada medium VIII Standard Classes are being conducted privately at Hulsur in Bhalki Taluk ;

(*b*) whether the Deputy Director of Public Instruction, Gulbarga, has recommended for granting permission to Marathi medium High School at Hulsur ;

(*c*) if not, the reasons for the delay in granting permission ;

(*d*) the encouragement given by Government for opening Marathi medium minority language Secondary Schools in border area ?

*A.—**Smt. GRACE TUCKER** (Deputy Minister for Education).—

(*a*) Yes.

(*b*) Yes.

(*c*) Does not arise in view of reply to Clause (*b*) above.

(*d*) Instruction is permitted in Marathi medium in Schools having a minimum of 45 students in High Schools Sections.

Sri B. R. SUNTHANKAR.—May I know when the Deputy Director, Gulbarga has recommended for granting permission to that Marathi High School why permission is not given ?

Smt. GRACE TUCKER.—The Deputy Director recommended somewhere in August 1963. The recognition was not given because the school in the first instance had not applied as per rules. The first condition was that they should apply about five months in advance of the reopening of the school ; but in case that is not done, it can be condoned on the recommendation of the Deputy Director. Secondly, Rs. 5,000 should be deposited before we can give recognition to the school.

Sri B. R. SUNTHANKAR.—May I know whether this rule that Rs. 5,000 should be deposited is aplied to all the schools equally ?

Smt. GRACE TUCKER.—It applies to all the schools without an exception.

Sri B. P. KADAM.—Is it not a fact that in a large number of cases recognition has been given even though they did not apply six months earlier ?

Smt. GRACE TUCKER.—The rule that a school should apply five months in advance has been observed by all the schools which have been recognised.

Sri B. P. KADAM.—Is it not a fact that in a large number of cases recognition has already been granted. If that be so, is it not a case of singling out this school ?

Smt. GRACE TUCKER.—This school was not singled out-Perhaps some schools which had asked for recognition about two months in advance might have been granted because there was time to process the papers. But in this case the application was made somewhere about 26th June *i.e.*, after the high schools had begun to function. So, there was difficulty on that account. Otherwise, possibly a more lenient view would have been taken in this case also.

Sri BAPURAO PATIL HULSURKAR.—It is very difficult to run a school without grants for three years. In view of this, is there any proposal to relax this condition ?

Smt. GRACE TUCKER.—That is a different question altogether. All schools have to run without grants for three years because we have no finance. In spite of this condition many schools inclusive of this school have come forword.

Sri B. R. SUNTHANKAR.—In view of the backwardness af the area and in view of the fact that it is very difficult to collect Rs. 5,000, will Government relax this condition ?

Smt. GRACE TUCKER.—That is completely a different question and that has not been done in any other done in any other case.

Sri G. V. GOWDA.—Is there one statutory rule in the Grant-in-Aid Code that a school should not receive grants for a period of three years ?

Smt. GRACE TUCKER.—It is not there in the Code, but because of the great demand for school that had to be laid down.

Sri C. J. MUCKANNAPPA.—Even if there is a commitment by the party to run a school without grants for three years, will the Government thick of relaxing that condition ?

Mr. SPEAKER.—That is something different from what Sri G. V. Gowda has asked Question Hour is over.
